

37L Weatherproof Internal Liner Product Information

Overview

The 37L Weatherproof Internal Liner by Solara Moto is expertly designed to fit seamlessly within our TrailMaster panniers, ensuring your gear remains dry and organized, regardless of the conditions. Compatible with a range of adventure motorcycles, this liner is the perfect addition for riders seeking quality and reliability on their journeys.

Bike Compatibility & Fitment

Our 37L Weatherproof Internal Liner is tailored to fit specific motorcycle models, enhancing the versatility and functionality of your Solara Moto luggage system. This liner is compatible with popular adventure bikes such as the BMW R1250GS, Honda Africa Twin, Honda NT1100, and Yamaha FJR1300. Ensure your motorcycle's panniers are equipped to handle any adventure with this essential accessory.

Technical Specs & Load Limits

- **Capacity:** 37L
- **Material:** Reinforced Nylon
- **Weatherproofing:** Yes
- **Weight Limit:** 10kg
- **Recommended Speed:** Up to 130 km/h

Our 37L Weatherproof Internal Liner is crafted from robust materials, ensuring durability and protection. The reinforced nylon construction offers superior resistance to wear and tear, while the IP67-rated weatherproofing guarantees your belongings stay dry, even in harsh conditions.

Step-by-Step Installation

Installation of the 37L Weatherproof Internal Liner is straightforward, ensuring you can quickly prepare for your next journey. Required tools include a basic wrench set and a torque wrench. Follow these steps:

1. **Remove Pannier Lid:** Open your TrailMaster pannier and remove the lid to access the interior.
2. **Insert Liner:** Carefully position the liner inside the pannier, ensuring it fits snugly.
3. **Secure Liner:** Use the provided straps to secure the liner in place, ensuring it does not move during travel.
4. **Reattach Lid:** Once the liner is secured, reattach the pannier lid and lock it with the appropriate torque settings.

Ensure all bolts are tightened to the specified torque ratings to maintain stability and safety during rides.

Weatherproofing & Maintenance

To maintain the integrity and appearance of your 37L Weatherproof Internal Liner, regular maintenance is recommended:

- **Gasket Sealing:** Periodically check the IP67 gasket seal for any wear and replace if necessary to maintain waterproofing.
- **Material Care:** Clean the reinforced nylon with a mild detergent and water, avoiding harsh chemicals that could degrade the material.
- **Lock Cylinder Maintenance:** Apply a light lubricant to the lock cylinder to ensure smooth operation and prevent corrosion.

These steps will help extend the lifespan of your liner and keep it performing at its best.

Safety & Latch Operation

The 37L Weatherproof Internal Liner features a keyed-alike quick-release mechanism, allowing for swift and easy access to your gear. The locking mechanism ensures your belongings are secure while providing peace of mind during your adventures. When operating the latch, ensure it is fully engaged and locked before commencing your journey to avoid accidental openings.
