

Solara Moto Weatherproof Internal Liners

Product Documentation

Bike Compatibility & Fitment

The Solara Moto Weatherproof Internal Liners are designed specifically for the TrailMaster panniers, ensuring a snug and secure fit for riders who demand both functionality and style. These liners are compatible with a variety of motorcycle models, including the BMW R1250GS, Honda Africa Twin, Honda NT1100, and Yamaha FJR1300. The tailored design provides optimal space utilization while enhancing protection against the elements, making them ideal for rugged adventures.

Technical Specs & Load Limits

Crafted from high-quality waterproof polyester, the Solara Moto Weatherproof Internal Liners boast a robust construction that stands up to the demands of long-distance travel. Each liner is equipped with a durable carry handle for convenience. The liners are designed to fit seamlessly within the TrailMaster panniers, maximizing the available volume capacity of 37L/48L per pannier. With a weight limit of 10kg per pannier, these liners ensure that your gear remains secure and organized during your rides.

Step-by-Step Installation

Installing the Solara Moto Weatherproof Internal Liners is a straightforward process that requires no additional tools. Simply open the TrailMaster panniers, place the liners inside, and ensure they are evenly spread out for maximum capacity usage. The liners include an intuitive fastening system that secures the liner in place, preventing any unwanted movement during transit. This simple yet effective installation ensures that you can hit the road with confidence, knowing your gear is protected.

Weatherproofing & Maintenance

Solara Moto Weatherproof Internal Liners feature an IP67-rated gasket sealing to provide exceptional protection against water and dust ingress. To maintain optimal performance, regularly inspect the gaskets for wear and clean them with a damp cloth. The rugged aluminum finish of the panniers should be maintained with a mild cleaning solution to preserve their appearance and function. Additionally, lubricate the lock cylinders with a silicone-based lubricant to ensure smooth operation.

Safety & Latch Operation

Safety is paramount at Solara Moto, and the Weatherproof Internal Liners are designed to integrate seamlessly with the TrailMaster panniers' keyed-alike quick-release mechanics. This system allows for easy access while ensuring that your gear remains securely locked during your journey. The intuitive latch operation provides peace of mind, knowing that your belongings are safe and easily accessible when needed.
